

WHAT THE PROJECT TAUGHT ME.

Which original questions were addressed, and what remains to be improved?

01 / Original questions

02 / Available evidence

03 / Limitations

04 / Next iteration

01

Results against the brief

Return to the design questions and connect each claim to observations or documented feedback.

Materials to be added

02

Limitations & unresolved questions

What did not work as intended, and what could not yet be evaluated?

Materials to be added

03

Next iteration

Specific improvements, lessons for future projects, and your personal reflection.

Materials to be added
